

Linkites

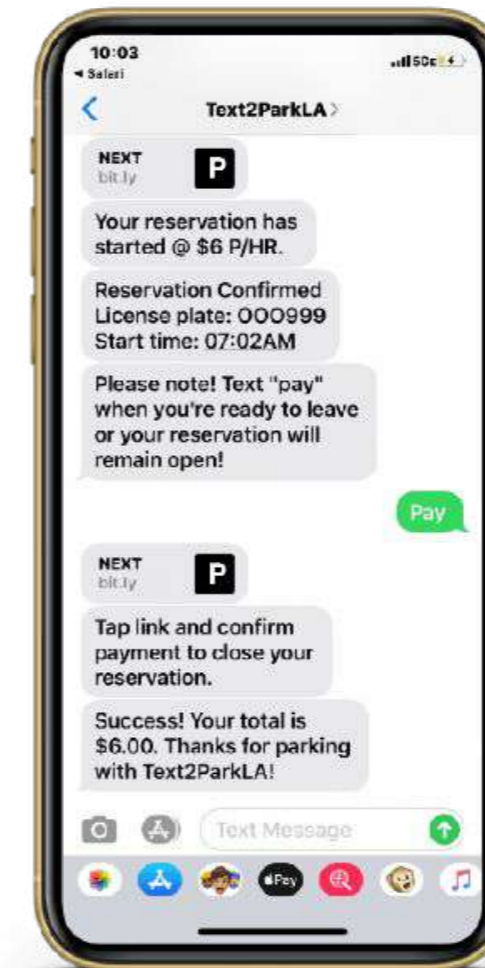

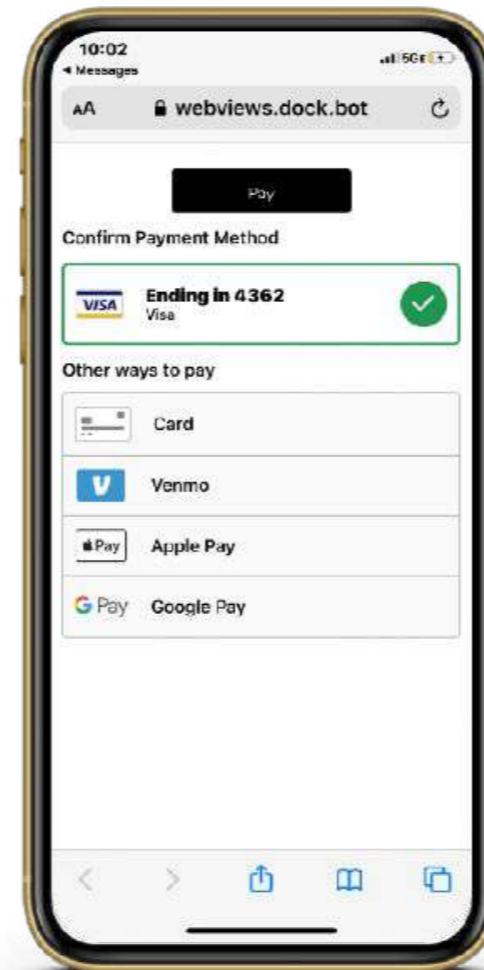

Industries / Parking Website

PARKING SOLUTIONS AND RESERVATION WEBSITE.

Customer Overview

We have built software that provides parking solutions and digital reservations through a conversational interface, like SMS or chatbots that can live on a website. NO apps, NO hardware. Users can make reservations via Google Pay, Apple Pay, Venmo, and Debit/Credit.

Problem Statement

Parking through conversation Through our software, people can reserve their parking slot via chatbots that can live on a website, inside of a widget. We have put an end to conventional parking system & made a robust automated parking management solution.

Web Assistant

Our Solution

We Linkites provide an intelligent chatbot we have also integrated the system to make it robust.

dashbot integration is a third-party solution we integrated with our software to track the user journey.

This helps us to get to know where the user is getting issues & resolve them immediately

Key Features We Kept in mind When Developing Parking Reservation Website:

1. Dashbot Integration

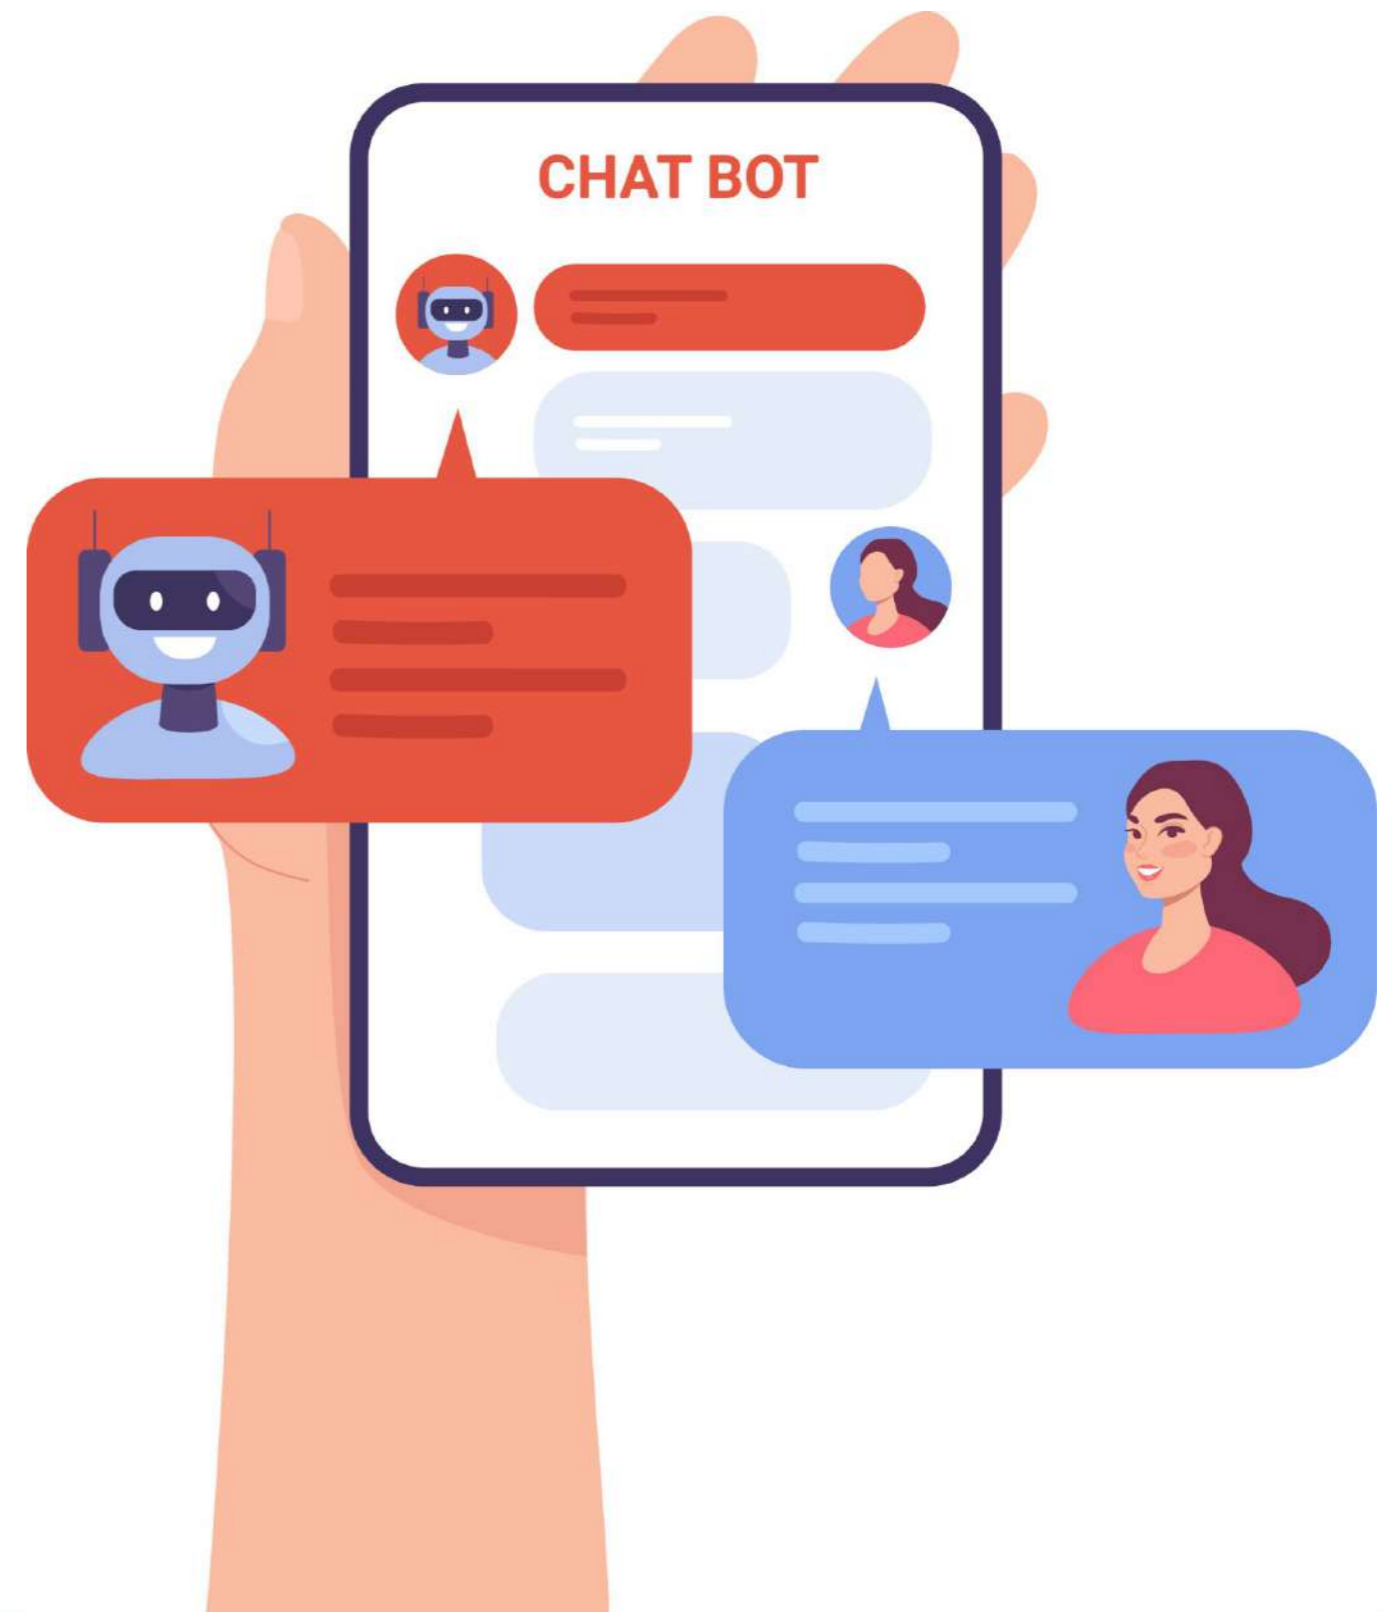

2. Reconciliation Software

3. Enforcement

Positive Outcome

Excellent user experience a simple prototype of how our chat bot can live on a website, inside of a widget, to provide parking solutions and reservations - all through a conversation. and reserve parking through Facebook Messenger. Contact us to white label your parking inventory, where reservations can be made available through your own customized chat bot!
